## INTRODUCING EZ LIFT PATIENT TRANSFER EQUIPMENT

Gila River Health Care is dedicated to providing high-quality healthcare for Native Americans. Along with major healthcare organizations across the country, we have unveiled a safe and secure solution for transferring our patients from one place to another.

This EZ Lift is designed to keep patients safe during transfer from a chair to an exam table or from a chair to another chair.

We respectfully ask that patients work with us as we introduce new and safe equipment for our patients. We will always make every effort to make your transfer as safe and comfortable as possible. We appreciate your trust and confidence in us.

Should you have any questions or would like to see an informational video, please contact the Cultural Customer Service Department at (602) 528-1424 or visit [GRHC.ORG](http://GRHC.ORG).

## HEALTH INFORMATION PROFESSIONALS (HIP) WEEK MARCH 26 - APRIL 1, 2017

Health information management or HIM (formerly known as Medical Records) is an allied health profession responsible for ensuring:

- The availability, accuracy, and protection of your clinical information for healthcare-related decisions.
- HIM plays a key role in the effective management of health data and medical records needed to deliver quality healthcare to the public.
- The work HIM professionals do benefits everyone from the exchange and use of health information that is accurate, accessible, secure, and available to the right person at the right time.

The American Health Information Management Association (AHIMA) invites all health information professionals (HIP) to join the celebration and be recognized during the 28th annual HIP Week. This year's theme is Health Informational Professionals - leading the way to quality data.

If you have questions about your medical record, call the Health Information Management Department today at (520) 562-3321 Ext. 1256 or 1376.
