Gila River Health Care Will Launch a New Software System

N E X T G E N

Beginning early October of 2017, Gila River Health Care will launch a new electronic health record software system across all facilities.

Benefits to Making the Change

This new software will replace an outdated system to improve compliance, communication reporting, and billing throughout Gila River Health Care.

What this Means to Patients

You may temporarily experience longer-than-expected wait times while transitioning to the new software.

We respectfully ask that patients work with us as we improve this process. We will make every effort to make this transition period as brief as possible. We appreciate your patience.
