## COVID-19 Test Follow-Up Instructions

You were tested for COVID -19 on (date) \_\_\_\_\_ at Primary Care Dept./Emergency Dept./Community Testing

- You were tested for COVID -19 because you had symptoms**  
Please remain in home quarantine for 14 days and you are symptom free for 96 hours. You must complete 14 days of quarantine even if your COVID -19 results are negative.
- You were tested COVID -19 because you were potentially exposed to someone with COVID-19**  
Please remain in home quarantine for 14 days. If you develop symptoms please notify your provider. You must complete 14 days of quarantine even if your COVID -19 results are negative.
- You were tested for COVID -19 as part of community surveillance**

We advise all patients to continue to follow the health and safety guidelines issued by the CDC and your local health department. These include wearing a face mask where possible; maintaining a distance of 6 feet from others while out in public and frequent handwashing or use of a hand sanitizer where washing is not possible.

Keep this folder with you, it has important information about your follow up and general information about COVID-19 . We will review instructions in this folder again when you get your results.
