GRHC Employee Health Services Department

Dear Student,

Thank you for your interest in Gila River Health Care (GRHC)'s Employee Health processes for students.

The following is a list of vaccinations, titers, and TB Surveillance process required for each student seeking placement in any of our departments or facilities:

1. Negative two step Mantoux TB skin testing (within the last 12 months of start date GRHC)
2. A copy of latest chest x-ray showing no active disease if student has had a positive TB skin test
3. Up-to-date Tdap vaccination
4. Two (2) doses of MMR vaccination or titer showing proof of immunity
5. Two (2) doses of Varicella vaccination or titers showing proof of immunity
6. Three (3) doses of HVB vaccination or titers showing proof of immunity
7. Annual influenza vaccination
8. Color Vision Screen (provided at Employee Health)
9. Respiratory Fit Test (provided at Employee Health)

All students must present to the main campus at HuHuKam Memorial Hospital in Sacaton, Arizona before presenting for assigned clinical rotations.
